## Help Giving Children Paediatric Heart Care

As a participant of ESPID 2024, you have the opportunity to help save children that don't have access to paediatric heart care by donating.

[Save a Child's Heart \(SACH\)](#) is a humanitarian organization situated in Ida Cabakoff International Pediatric Cardiac Center within the Sylvan Adams Children's Hospital of Wolfson Medical Center. SACH operates globally to rescue children from regions lacking access to pediatric cardiac care, having saved over 7,000 lives and established centers of excellence in their home countries. Guided by the principle of *tikkun olam*, or repairing the world, SACH advocates for universal access to top-tier medical treatment, regardless of demographic factors such as race, religion, gender, nationality, or socioeconomic status.
